BAND STORY

"

Thank You for visiting my site!!

I am a performing songwriter who has been very Blessed to be associated with some great talented friends and co-writers. As with most writers, my soul is infused with music. I have been able to work with some of Nashville's best! I am proof that if you follow the directions of this workshop that you can be successful to the level you desire to reach. My hope is to write songs that will make a difference in peoples lives and touch their hearts.

I previously worked mostly with Donnie King and Charlie Craig, two of the best writers I know!

Most of the music on the site is from Donnie King's new album "Life Of A Country Boy", produced by Charlie Craig. Great job guys!!

We have several songs Published with Power Play Music, Gusto / King Records, and have had a few cuts and some radio play. The latest cut was with Jimmy VanZandt who cut our song "Rollin".

We have interest for several projects currently, and several of our songs have been kept by the movers and shakers in Nashville. Unfortunately, the current industry seems to be imploding, so we will continue to work hard so that when the dust settles, we'll have product ready.

Bless you all, and Thank You again for stopping by!
